

Dear Ann,

Unfortunately, this summer was our last one for our TAH grant. The good news is that it was the best! Our teachers really enjoyed being in St. Augustine. If we write another grant, I would certainly recommend partnering with Florida Humanities Council again. Our experience with FHC was all positive – the content provided, the scholars/historians, the Chautauquans, the experiential activities, the variety of activities, the ease of communication, the responsiveness to us, the materials, etc. were all top-notch plus our teachers gained valuable networking contacts with each other while being away together at the Teacher Center.
